PCT Published Application No. 99/28498 is not in English. "Where the information is not in the English language, but was cited in a search report or other action by a foreign patent office in a counterpart foreign application, the requirement for a concise explanation of relevance [under 37 C.F.R. § 1.98(a)(3)] can be satisfied by submitting an English-language version of the search report or action which indicates the degree of relevance found by the foreign office." (See MPEP §609 A(3), second paragraph.) Applicants enclose a copy of such a Search Report from a counterpart PCT application for this application.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." Applicants further reserve the right to take appropriate action to establish the patentability of the claimed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Respectfully submitted,
